

GHG assessment

CONTEXT

You need an effective low-carbon strategy for your business to reduce your carbon footprint and meet the expectations of your stakeholders.

You also need an accurate carbon footprint to assess your environmental impact.

You want the tools to build and manage your carbon footprint.

OUR MISSION is to help you elaborate an efficient low-carbon strategy for your company. We are committed to providing you with accurate and relevant information about your carbon footprint and to helping you reduce your environmental impact.

OUR APPROACH

- Raising awareness among technical teams and management
- Validation of the scope (mapping of flows, scope of activities)
- Calculation of GHG emissions (data collection and processing)
- Action plan and low-carbon transition vision
- GHG report
- Improvement report

Tools: presentation of a benchmark of the tools best suited to your sector and company size, choice of solution, support in deploying the tool.

OUR ADDED VALUE is based on our knowledge of the business world and our ability to go further by taking into account the non-financial issues and challenges facing your business. We can provide you with concrete, operational recommendations to improve your overall performance.

A local approach to your operational challenges

A rigorous, structured service shared with you to ensure a high-performance approach. Depending on your needs, we can work on your premises or in our offices.

Quality, ethics, confidentiality

We are committed to ensuring that these principles are respected and that we are totally independent.

More than just figures

Value-added reporting, ongoing technical and regulatory monitoring to anticipate and prepare for change

A multidisciplinary ecosystem

Our organisation is part of a rich and diverse ecosystem that directly benefits all our stakeholders, and in particular our customers.

A resolutely digital approach

The information systems that underpin our financial reporting are quickly taken on board by our staff.

Measure. The aim is to measure the company's overall performance by including non-financial aspects. Relevant measurement requires method, reliability and integrity.

Act. The right measure authorises the right action.

Transform. Because we measured and acted at the right time, in the right tempo, in the right direction, transformation can happen.
